EXPERIENCE

Programming Instructor | iSchool

July – September 2026

- Delivered interactive programming lessons in Python, HTML, CSS, JavaScript, and Web Development.
- Guided students through project-based learning to strengthen coding and problem-solving skills.
- Assessed student performance and provided personalized technical feedback.
- Encouraged logical thinking, creativity, teamwork, and analytical problem-solving.
- Created engaging learning activities to improve students' programming confidence.

Frontend Developer (OpenCart) | Al-Mawred

June 2024 – March 2025

- Developed responsive frontend interfaces for an educational eCommerce platform using OpenCart.
- Integrated frontend layouts with backend modules and OpenCart templates.
- Optimized website responsiveness, SEO, and frontend performance to provide a consistent user experience across all devices.
- Collaborated with the development team to deliver production-ready features.
- Contributed to building a secure educational platform with integrated course management and online payment functionality.

Freelance WordPress Developer | AL-Wated

March 2025

- Developed and deployed a fully responsive corporate website using WordPress and Elementor.
 - Converted Figma designs into responsive, production-ready web pages.
 - Built a multi-regional website serving Egypt, UAE, and Saudi Arabia.
 - Improved website usability and responsiveness across desktop, tablet, and mobile devices.
-

PROJECTS

Balance Sugar System (Graduation Project – Grade A+)

Technologies: Figma, Adobe XD, Adobe Photoshop

- Designed the complete UI/UX for a diabetic healthcare monitoring application.
- Created user flows, wireframes, and high-fidelity prototypes.
- Applied accessibility and user-centered design principles.
- Designed interfaces for blood sugar tracking, medication reminders, meals, physical activity, and diabetic foot monitoring.

Clinic Appointment Booking System | [Live Demo](#)

Technologies: HTML5, CSS3, JavaScript

- Developed a responsive clinic appointment booking system with a modern user interface.
- Designed intuitive appointment scheduling and booking workflows.
- Built responsive layouts optimized for desktop, tablet, and mobile devices.
- Applied semantic HTML and modern CSS techniques to improve maintainability and performance.

Personal Portfolio Website | [Live Demo](#)

Technologies: HTML5, CSS3, JavaScript

- Designed and developed a fully responsive portfolio website showcasing projects, technical skills, and professional experience.
- Optimized website performance and ensured cross-browser compatibility.
